SHARP WATER PURIFIER WITH ONE-OF-A-KIND BENEFITS

Cleanest Water Promise

Step by step purification in the Sharp Water Purifier ensures 99.9%* purity.

Humans require drinking water with fewer impurities, which can easily be absorbed by the body. We deploy high-grade filtration systems, state-of-the-art purification, and the best quality filters that ensure superior quality.

(TUV Test Report Number GGN/F(C/M)/22/006668)

Pure Water Round the Clock

LED UV Sterilization in tank decontaminate the filtered water every 2 hours.

RO removes viruses and bacteria, so there's no need of UV in the filtration stage. However, there are chances of germ regeneration in water that's stored in the tank.

The UV Sterilization ensures that you get pure water 24/7. Inbuilt UV-LED bulb in the tank treats stored water periodically to ensure safe drinking water round the clock.

Water Recovery

DOW RO Membrane ensures more than 50% water recovery.**

This filter helps to recover more than 50%** water. To ensure that water is saved, the DOW RO Membrane in the Sharp Water Purifier secures every half a drop of water resources.

**Based on internal testing.
