What is Vestige Prime Absorvit?

Vestige Prime Absorvit assists you in transforming your traditional dose form into a cutting-edge, quicker-absorbing dosage form. It is an innovative, faster and efficient sublingual spray that improves the typical vitamin dosage form and provides quicker absorption for improved outcomes.

Benefits of Sublingual dosage form:

The sublingual route bypasses the first-pass metabolism and hence facilitates rapid absorption of the vitamins into the systemic circulation. Vitamins directly reach the systemic circulation using blood vessels and provide quicker absorption for improved outcomes.

Why Vestige Prime Absorvit?

The majority of the diseases are manifestations of the sub-optimal functioning of one or more systems/organs of the body. In most cases, it is caused by deficiencies of vital nutrients.

The secret to great health and vitality is directly related to the adequate quantity of nutrients reaching the organs.

Vestige Prime Absorvit with unique sublispray technology enables rapid absorption, targeting the vital organs most effectively.

Rationale of Vestige Prime Absorvit:

- Up to 90% of nutrients get absorbed
- Faster oral absorption for effective results
- Better compliance for those who have difficulty in swallowing

Instructions to use Vestige Prime Absorvit:

- Shake well before use
- Spray directly under the tongue

Why Sublingual Spray is the need of the hour?

84%

hesitate taking medication due to pills size

40%

have difficulty in swallowing pills
