Ayurveda - India's contribution to mankind in its quest towards human longevity and well being - has been developed through millennia of medical practice and theory by several generations of physician-saints and practitioners. Ayurveda is a 5000 year old wellness practice, much before the western world even started talking about wellness.

The same concept is envisaged in the following stanza by Susruta in 1000 BC.

“*Health is a state of complete physical, mental and social wellbeing and not merely the absence of disease.*”

**Definition of Health by the World Health Organization (WHO)**

समदोषः समाग्निश्च समधातुमलक्रियः ।  
प्रसन्नात्मेन्द्रियमनाः स्वस्थ इत्यभिधीयते ॥

Ayurveda is the Original form of WELLNESS...

**Ayusante:** Ayurvedic Wisdom gained over 70 years of Wellness Practice, providing health and wellness to more than a million people.
